## SETTING THE STANDARD FOR SAFETY

All accidents are preventable. Our impeccable safety record confirms that belief. CSI employees are trained both on site and by our web based platforms to meet and exceed all Client safety requirements. Our work is continuously monitored and always subjected to job safety analysis that assures and increases safety awareness immediately. Any suggestions to increase a job's safety level is quickly implemented.

For over 30 years we have worked without incident or injury and have zero lost workdays. One more reason you can trust CSI with all of your oil and gas projects.

## DEEPLY ROOTED VALUES

In every country, on every job, we carry with us the understanding and respect for the environment, human rights and local cultures. We are dedicated to training indigenous personnel to benefit local economies and safely preserve local customs. It is our policy to conduct business ethically while in accordance with all regulations.

Through our CASHES plan, we promote Community Affairs, Safety, Health, Environment and Security of employees and property. Additionally, we show support for human rights by willingly adhering to the Global Sullivan Principles. We are fully registered with National Petroleum Investment Management Services (NAPIMS) and remain in full compliance with the Nigerian National Petroleum Corporation's (NNPC) Nigerian Content Vision.
